America World Adoption Opens Domestic Program

MCLEAN, VA – America World Adoption Association announced today ...

America World Adoption is pleased to announce the opening of a new adoption program of infants born in the United States. America World is committed to ministering to women who are experiencing an unplanned pregnancy who are not ready to be parents or who are unable to parent at this time in their lives and are considering making an adoption plan for their child. Christian families who desire to grow their family through adoption are an important partner in this ministry. The program is initially based in Virginia and will expand to other states.

In addition to the full service domestic program, many America World offices throughout the country can provide home study, post placement supervisory services, and other legally mandated services for domestic adoption through agencies in other states or through private adoption.

America World Adoption (www.awaa.org) is a charitable Christian-based adoption organization, founded in 1994. Since its beginning, America World has placed over 3,500 children into loving Christian homes throughout the nation.

For more information about America World Adoption Association or their new domestic adoption program, visit www.awaa.org/programs/domestic , email Teresa.McDonough@awaa.org or call 1-800-429-3369.
